I'm a junior graphic designer passionate about offering creative answers to every challenge I face. What I enjoy the most about graphic design is the opportunity to express myself through art, and visually communicate the concept behind a logo, a brand or any art design.

Within these past two years of studies, I've had the opportunity to learn and work with several types of projects among them websites design, magazines design, logo design and corporate branding, as well as other design for printing.

Among my strengths, I would list strong communication and organization skills, able to work under pressure and team-oriented person.
